

Insurance brokerages & financial-services support firms

A one-month campaign targeting WA insurance brokerages and financial-services support firms — where senior brokers lose advisory time to renewals, certificates, claims and CRM admin.

CAMPAIGN OWNER

Associate: _____

DURATION

One calendar month

CORE TARGETS

15 priority + Associate research

ENTRY PRODUCT

Broking administration assistant (renewals, certificates, claims admin, CRM)

BRAINBOX

Campaign at a glance

The Associate carries this campaign for one month and reports achievements at month-end against the targets below. Work the 15 supplied contacts first, then add your own researched targets in the same profile.

15

Priority contacts supplied (verify before outreach)

25–35

Additional accounts the Associate researches & adds

6–10

Qualified appointments for the BDM this month

1

Industry Insight Article attached to every first touch

How the campaign runs. Work the 15 supplied contacts first, add your own researched targets to reach ~40–50 accounts, and run the four-week cadence in this pack. Every appointment is booked for the Brainbox **Business Development Manager (BDM)**, recorded in HubSpot, and tagged *Campaign 06 · Insurance Broking*.

Why this industry

THE PRESSURE

Renewal workload, claims administration, certificates of currency, insurer follow-up, compliance records, client documentation and CRM hygiene take valuable advisory time away from senior brokers and account managers.

THE OPPORTUNITY

The right offshore model keeps licensed advice and client judgement with the local team while moving structured administration into a dedicated support function — renewal preparation, policy collation, claims admin, insurer follow-up, certificate requests, debtor support and onboarding packs.

MARKET SHAPE

Not dominated at the SME brokerage level. Target **owner-led and mid-market brokerages**. Strong controls are needed around privacy, licensing boundaries and client communications.

Offshore-suitable roles to lead with

Instant Expert

A five-minute brief so you can talk to a insurance broking prospect like someone who understands their world — not a caller reading a script.

THE LABOUR MARKET THEY LIVE IN

Broking runs on experienced people, and they are in short supply. Firms compete for account managers, broker support and claims staff, and training a new local hire to competence takes months. Meanwhile the renewal calendar never stops, so any gap in the support team is felt immediately by clients.

WHY THE ADMIN LOAD HURTS

Every policy carries a trail: renewal preparation, quote comparison collation, certificates of currency, endorsements, insurer follow-up, claims lodgement and updates, invoicing and CRM updates. When brokers do this themselves, they have less time for advice, cross-sell and relationships — the work that actually grows the book.

THE PRESSURES SHAPING THEIR YEAR

Renewal seasons create sharp peaks, compliance obligations (privacy, licensing, disclosure) are strict, and debtors and unclosed CRM tasks quietly erode the business. Clients expect fast turnaround on certificates and claims, and a slow response can lose an account to a competitor.

WHERE OFFSHORE SUPPORT FITS

Licensed advice, placement decisions and client judgement stay local. A dedicated offshore administrator handles the structured work — renewal prep, certificates, policy collation, claims admin, insurer follow-up and CRM hygiene — lifting broker capacity while control over advice and compliance stays in the firm.

TALK LIKE AN INSIDER

Know the language: renewals, COCs, endorsements, SOA/SOAF, binders, closings, claims triage, ICA, broking platforms. Know the tools: Insight/CBS, Winbeat, SVU, iBais, Sunrise, BizCover-adjacent systems. Lead with capacity and turnaround; be precise about licensing boundaries.

Target profile & selection

Add researched accounts that meet **at least four** of these signals. Verify size and ownership before adding — the model fits owner-led SMEs.

- Owner-led or mid-market insurance brokerage
- 10–80 staff, WA-based
- Principal / director-led
- Recurring renewal, certificate & claims admin
- Recently advertised for broker support or account admin
- Uses broking platforms (Insight, Winbeat, SVU, iBais, Sunrise)
- Growth signals: new authorised reps, book acquisitions, new classes
- Renewal-season peaks & CRM / debtor pressure
- Visible broker & support team on LinkedIn

PURSUE

- Owner / director-led SME brokerages
- Firms recruiting broker or account support
- Recurring renewal, certificate & claims load
- Brokerages with renewal-season peaks

EXCLUDE

- National insurers & large brokers with shared services
- Firms too small to support a role
- Work requiring licensed advice (kept local)
- Firms with strict no-offshore data rules (unless reviewing)

The proposition & angles

Lead with a specific pressure point, not a generic offshore pitch. Match the angle to the person and the trigger.

Pressure point	Angle to lead with
Brokers doing admin	A broking administrator so brokers advise and sell, not process.
Renewal-season crunch	Renewal preparation and quote collation to smooth the peaks.
Certificate turnaround	Fast certificate-of-currency processing to keep clients happy.
Claims admin backlog	Claims lodgement, updates and follow-up support.
Messy CRM	CRM hygiene — data, tasks and pipeline kept current.
Growing debtors	Debtor follow-up and statements to protect cash flow.

Keep it concrete. Prospects respond to one or two named workflows they recognise from their own week — a specific pressure point lands far better than "back-office support".

Priority prospect list — 15 supplied

First-pass, public-source targets. **Verify in HubSpot, Sales Navigator & Apollo before outreach** — confirm contact, size and fit. Names marked "verify" need a confirmed decision maker first.

Company	Best contact	Why approach
Phoenix Insurance Brokers	Ellen Pobjoy, Managing Director	Brokerage target for renewal preparation, claims support and certificate administration.
Coverforce Westminster	David Rogers, Director	Insurance brokerage target for account support, renewal documentation and CRM discipline.
Cowden Insurance Brokers WA	Chris Carr, Director	Brokerage target for renewal and claims administration support.
Trident Insurance Group	Rick Wolozny, Managing Director	Perth brokerage target for client-service and insurer-follow-up administration.
Woods Insurance Brokers	Simon Woods, Managing Director / Founder / Owner	Brokerage target for senior-led admin leverage and client documentation support.
LML Insurance Group	Bryan Leibbrandt, Managing Director and Co-Founder	Brokerage target for corporate client administration and claims support.
EBM Insurance & Risk	Alan Bishop, CEO and Executive Chair	Privately owned broker with renewal, claims and document workflows.
PSC Insurance Brokers Perth	Simmons Duffield, Senior Broker / Perth senior contact	Brokerage target for transport, mining services and winery sector support workflows.
Centrewest Insurance Brokers	Scott Cole, CEO and Managing Director	WA brokerage target for structured account administration support.
Country Wide Insurance Brokers	Ronnie Chong, Managing Director	Regional and SME brokerage target for renewal and certificate administration.
General Insurance Brokers	Lee Thomson and Sean Condo, Directors	Senior-led brokerage target for document collation and support workflows.
Knightcorp Insurance Brokers	Trent Brown, Chief Executive; Wayde Knight, Managing Director / Founder	WA brokerage target for administrative scale and client service support.
Resolute Insurance Services	Mike Moriarty, General Manager and Executive Director	Brokerage target with health and disability care specialisation and admin support potential.
WA Insurance Brokers	Peter Newbound, Principal	Small brokerage target for CRM, renewal and client documentation support.
McKinley Plowman General Insurance	General Insurance Practice Lead to verify	Financial-services group with insurance broking support potential. Verify contact.

EXPAND THE LIST

Add **25–35 of your own researched accounts** that fit the profile — surfaced via Sales Navigator, job ads, industry directories and referrals. Aim for ~40–50 accounts for the month.

Buyers & qualification

Multi-thread each account — reach a senior decision maker for authority and an operational person for the felt pain.

PRIMARY DECISION MAKERS

- Owner · Managing Director
- CEO · Executive Chair
- Director · Principal

INFLUENCERS & SECONDARY BUYERS

- Operations / Broking Support Manager
- Account Management Lead
- Finance / Compliance Manager

Qualification questions

Use only what you need — the goal is a meeting, not a full diagnosis.

- Can I ask, do your brokers or account managers spend much time preparing renewal files or chasing insurer documents?
- Are certificate requests, claims admin or CRM updates creating backlog?
- Do you have a consistent process for offshore-suitable administration?
- Have you previously used offshore staff in brokerage support?

Qualified appointment. Company fits the profile; contact is a decision maker or credible sponsor; at least one confirmed business driver; meeting accepted in the BDM's calendar with a clear handover note in HubSpot.

Objection handling — insurance broking

How to handle any objection. Acknowledge it sincerely, reframe to the business issue, then ask one question that keeps the conversation open. Never argue and never oversell — the goal is a short meeting for the BDM, not winning the point on the call.

Objection	Response angle
“This is licensed advice.”	Advice and placement stay with your licensed brokers — always. We support the administration around them: renewals, certificates, claims processing, CRM. Which is heaviest?
“Client data & privacy.”	Central in insurance. Brainbox staff work under managed access, confidentiality and clear policies inside your platform — happy to detail the controls.
“Compliance is strict.”	Which is why a trained, consistent resource who learns your process helps. You retain the compliance decisions; the processing gets reliable.
“We tried offshore before.”	Usually a scoping and supervision issue. Our managed model trains and supervises the role and covers leave — different from a marketplace VA.
“Renewals are seasonal.”	That’s the strength — a dedicated resource absorbs renewal peaks without hiring and shedding local staff each season.
“Send me details.”	Happy to — is it renewals, certificates or claims admin that hurts most? I’ll send the right example.

Know when to stop. A clear “no” frees time for better-fit accounts. Close the loop kindly, set a nurture date if there’s a future trigger, and respect every opt-out immediately.

First-touch email

Sent from Brainbox / the BDM with the Industry Insight Article attached. The Associate follows up by phone within a few days.

SUBJECT · OFFSHORE ADMINISTRATION SUPPORT FOR INSURANCE BROKERAGES

Hi [First Name]

Insurance brokerages are under steady pressure from renewal workload, claims administration, certificates of currency, insurer follow-up, compliance records, client documentation and CRM hygiene. Senior brokers and account managers can lose valuable advisory time to tasks that are important but process-heavy.

Brainbox helps Australian businesses place dedicated offshore personnel through our delivery centre in the Philippines. For insurance brokerages and financial services support firms, the right offshore model keeps licensed advice and client judgement with the local team while moving structured administration into a dedicated support function.

We have attached an Industry Insight Article that looks at the labour and workflow pressure affecting brokerages. It explores how offshore staff can support renewal preparation, policy document collation, claims administration, insurer follow-up, certificate requests, debtor support and client onboarding packs.

The discussion may be relevant for [Company] if your senior people are spending too much time chasing documents, updating systems, preparing renewal files or managing administrative follow-up.

Someone from Brainbox will be reaching out over the next few days to arrange a short meeting with our Business Development Manager. The meeting would explore whether a dedicated offshore role could improve broker capacity while maintaining local control over advice, relationships and compliance.

Kind regards

[Sender Name] · Brainbox

Lead generation call script

A structured prompt to secure a 20-minute meeting for the BDM — not to sell the service on the call.

OPENING

Hi [First Name], this is [Caller Name] from Brainbox in Perth. We help Australian businesses place dedicated offshore support personnel through our delivery centre in the Philippines. I am following up on an Industry Insight Article we sent through about labour and workflow pressure in insurance brokerages and financial services support firms.

INDUSTRY RELEVANCE

Brokerages often have senior brokers and account managers carrying process-heavy work. Renewal preparation, certificates of currency, policy document collation, insurer follow-up, claims administration, debtor support and CRM updates can take time away from advice and client relationships. The offshore opportunity is not licensed advice. It is structured administration under the control of the local team.

QUALIFICATION

Can I ask, do your brokers or account managers spend much time preparing renewal files or chasing insurer documents? Are certificate requests, claims admin or CRM updates creating backlog? Do you have a consistent process for offshore-suitable administration? Have you previously used offshore staff in brokerage support?

MEETING ASK

A 20-minute meeting with our Business Development Manager would help identify whether there is a clean support role that could improve broker capacity while keeping advice and client control local. Would [day/time] or [day/time] work?

LINKEDIN CONNECTION NOTE (OPTIONAL FIRST TOUCH)

Hi [First Name], I work with WA insurance broking businesses on offshore renewal preparation, certificate processing, policy collation support. Noticed [Company]'s work — would be good to connect.

Follow-up sequence

First touch opens the door; the follow-ups win the meeting. Each adds a new angle — never resends the same message. Stop the sequence on any reply, opt-out or "do not contact".

Touch	Purpose
1 • Day 1	First-touch email + Industry Insight Article (previous page).
2 • Day 2–3	Phone call using the script; LinkedIn connection request if not already connected.
3 • Day 5	Value follow-up email — one specific angle from the proposition page.
4 • Day 9	Second call + short LinkedIn message with a relevant proof point.
5 • Day 14	Close-the-loop / breakup email — polite, no pressure, easy to reopen.
Day 45+	Move to nurture; revisit on a new trigger (hiring, growth, new work).

TOUCH 3 • VALUE FOLLOW-UP EMAIL

Hi [First Name], following my note on offshore broking support — the issue most WA brokerages raise first is senior brokers losing advisory time to renewals, certificates and claims admin. A dedicated administrator inside your platform lifts capacity while advice stays local. Worth 20 minutes with our BDM to see if it fits [Company]?

TOUCH 5 • CLOSE-THE-LOOP / BREAKUP EMAIL

Hi [First Name], I won't keep filling your inbox. If offshore broking administration isn't a priority right now, that's fine — I'll close the loop. If it's timing, tell me when to circle back. The Industry Insight Article is yours to keep either way.

Multi-thread, don't spam. Space the sequence across the month and vary who you contact within an account — never several identical messages to one firm in a day.

The four-week plan

One month, carried by the Associate. Front-load research and first touches; protect the back half for conversion and booking.

Week 1
Verify the 15, research +25–35, map buyers & triggers, load HubSpot, send first email wave with the Insight Article.

Week 2
Call wave on emailed contacts, LinkedIn connects & engagement, follow-up wave 1, begin booking meetings.

Week 3
Second first-touch wave to remaining & researched accounts, multi-thread Tier 1, convert warm replies, referral asks.

Week 4
Conversion push, confirm & hand over booked meetings, reactivate non-responders, clean data, write month-end report.

Focus	What "good" looks like each week
Research	Every account verified, tiered and tagged Campaign 06; buyers mapped with a named trigger.
Outreach	Personalised first touches with the Insight Article attached; one strong reason per message.
Calls	Priority order: warm replies, accepted connections, openers, Tier 1 decision makers.
Booking	Two specific times offered; invite sent immediately; handover note in HubSpot for the BDM.

Cross-reference the core cadence. This campaign runs inside the weekly rhythm from the Lead Generation Playbook — campaign touches count toward the Associate's standard first-touch, follow-up, call and conversation targets, and campaign-sourced meetings count toward booked and held appointments.

BDM handover note

Complete this in HubSpot for **every** booked appointment. It is what turns a booking into a converted meeting — the BDM walks in already knowing the pain, the room and the angle.

Company & size	
Contact, role & who else is in the room	
Trigger (why now)	
Pain hypothesis	
Offshore-suitable roles identified	
Recommended angle / entry product	
Software & systems in use	
Objections raised & responses	
"Do not say" / sensitivities	
Meeting date, time & format	

DO INCLUDE

- The exact words the prospect used about their pain
- The specific trigger you found
- One clear recommended entry product

AVOID

- Over-promising scope or pricing
- Vague notes like "keen, wants to chat"
- Booking without confirming the decision maker attends

Monthly targets

The benchmark is appointments *held* with a good-fit insurance broking prospect, not activity alone.

40-50 Target accounts worked (15 supplied + research)	100-140 Contacts researched & enriched	40-50 First-touch emails with Insight Article	120-160 Follow-up actions across the month
80-120 Calls to priority & warm contacts	20-30 Live conversations / two-way exchanges	10-15 Warm opportunities created in HubSpot	6-10 Qualified appointments booked for the BDM

FINAL SUCCESS MEASURE

Appointments that convert into **sales opportunities** and ultimately a **commercial transaction**. Every metric above is a leading indicator of that single revenue outcome.

Insurance Broking — outcomes

Completed by the Associate and reviewed with the sales lead / Marketing Manager at month-end.

Associate		Month	
BDM covered		Reviewed with / date	

ACTIVITY & OUTCOMES VS TARGET
