

RTOs, training providers & education services

A one-month campaign targeting WA RTOs and private training providers — carrying heavy, time-sensitive administration around enrolment, LMS, compliance evidence and student support.

CAMPAIGN OWNER

Associate: _____

DURATION

One calendar month

CORE TARGETS

15 priority + Associate research

ENTRY PRODUCT

Education administration assistant (enrolment, LMS, compliance evidence, student support)

BRAINBOX

Campaign at a glance

The Associate carries this campaign for one month and reports achievements at month-end against the targets below. Work the 15 supplied contacts first, then add your own researched targets in the same profile.

15

Priority contacts supplied (verify before outreach)

25–35

Additional accounts the Associate researches & adds

6–10

Qualified appointments for the BDM this month

1

Industry Insight Article attached to every first touch

How the campaign runs. Work the 15 supplied contacts first, add your own researched targets to reach ~40–50 accounts, and run the four-week cadence in this pack. Every appointment is booked for the Brainbox **Business Development Manager (BDM)**, recorded in HubSpot, and tagged *Campaign 07 • Training & RTOs*.

Why this industry

THE PRESSURE

Enrolment, student support, LMS administration, evidence collation, survey follow-up, certificate preparation and compliance documentation are repetitive, time-sensitive and important to the learner experience — but they pull local staff away from higher-value compliance and training work.

THE OPPORTUNITY

The strongest use cases are administrative support roles that work inside existing systems without replacing trainer judgement, assessor responsibility or compliance decision-making — enrolment processing, student communication, LMS updates, compliance evidence management, survey administration and document preparation.

MARKET SHAPE

Target **private RTOs, niche training providers and workplace-training businesses** — better prospects than universities or TAFEs, which are large and slow to procure.

Offshore-suitable roles to lead with

- Enrolment admin
- Student support
- LMS administration
- Document control
- Survey follow-up
- Compliance evidence collation
- Certificate preparation
- Data entry

Instant Expert

A five-minute brief so you can talk to a training & rtos prospect like someone who understands their world — not a caller reading a script.

THE LABOUR MARKET THEY LIVE IN

Training providers compete for both trainers/assessors and experienced compliance-savvy administrators, and both are scarce. Student administration is high-volume and deadline-driven, and turnover in reception and student-support roles disrupts the learner experience and the compliance trail at the same time.

WHY THE ADMIN LOAD HURTS

An RTO runs on administration: enrolments and USI checks, LMS setup and updates, student communication, assessment records, compliance evidence, AVETMISS reporting, surveys and certificate issuance. When this slips, learner experience suffers, audit risk rises, and trainers get pulled into admin instead of teaching and assessing.

THE PRESSURES SHAPING THEIR YEAR

ASQA compliance and audit readiness are unforgiving, funding and reporting deadlines are fixed, and margins in private training are thin. Enrolment intakes create sharp peaks, and every incomplete evidence file or late certificate is both a learner and a compliance problem.

WHERE OFFSHORE SUPPORT FITS

Trainer judgement, assessment decisions and compliance sign-off stay local. A dedicated offshore administrator handles the structured work — enrolment processing, LMS updates, student communication, evidence collation, survey follow-up and certificate preparation — improving consistency and easing pressure on the education and compliance team.

TALK LIKE AN INSIDER

Know the language: RTO, ASQA, AVETMISS, USI, units of competency, training packages, LLN, RPL, VET Student Loans, evidence and validation. Know the tools: aXcelerate, VETtrak, Moodle, Canvas, Cloud Assess. Be precise that assessment and compliance judgement stay with the provider.

Target profile & selection

Add researched accounts that meet **at least four** of these signals. Verify size and ownership before adding — the model fits owner-led SMEs.

- Private RTO, niche or workplace training provider
- 10–80 staff, WA-based
- CEO / GM / owner-led
- Recurring enrolment, LMS & compliance-evidence load
- Recently advertised for student support or admin
- Uses training systems (aXcelerate, VETtrak, Moodle, Canvas)
- Growth signals: new courses, funding contracts, intakes
- Audit-readiness or reporting-deadline pressure
- Visible student-services & admin team on LinkedIn

PURSUE

- Private RTOs & niche training providers
- Owner / CEO-led workplace-training businesses
- Recurring enrolment, LMS & evidence load
- Providers with intake-driven peaks

EXCLUDE

- Universities & TAFEs (large, slow procurement)
- Providers too small to support a role
- Assessment / compliance judgement (kept local)
- Providers with entrenched offshore admin (unless reviewing)

The proposition & angles

Lead with a specific pressure point, not a generic offshore pitch. Match the angle to the person and the trigger.

Pressure point	Angle to lead with
Trainers doing admin	An education administrator so trainers teach and assess, not process.
Enrolment-intake peaks	Enrolment and USI processing to absorb intake surges.
LMS falling behind	LMS setup and updates to keep courses current.
Audit / evidence risk	Compliance evidence collation to stay audit-ready.
Survey & completion follow-up	Student communication and survey follow-up to lift completions.
Certificate delays	Certificate preparation and issuance without the bottleneck.

Keep it concrete. Prospects respond to one or two named workflows they recognise from their own week — a specific pressure point lands far better than "back-office support".

Priority prospect list – 15 supplied

First-pass, public-source targets. **Verify in HubSpot, Sales Navigator & Apollo before outreach** — confirm contact, size and fit. Names marked "verify" need a confirmed decision maker first.

Company	Best contact	Why approach
Trainwest	Managing Director / General Manager to verify	RTO target for enrolment, LMS, student support and compliance evidence administration. <i>Verify contact.</i>
RTO Doctor	Raelene Bartlett, Founding Director	RTO consulting and compliance business with document and client administration support potential.
Pivot Institute of Training	Managing Director / General Manager to verify	Corporate training RTO with enrolment and student administration support potential. <i>Verify contact.</i>
LearnEd Training	Sam Sandhu, Director; Jenny Sage, Founder	Care-sector training provider with enrolment, student support and documentation workflows.
Training Alliance Group	Bala Suppiah, Director	Employment and training organisation with administration and evidence support potential.
Parabellum International Training	Training Manager / General Manager to verify	Emergency response and medical training provider with scheduling and compliance admin potential. <i>Verify contact.</i>
Saferight	General Manager / RTO Manager to verify	High-risk safety training provider with course admin and student support potential. <i>Verify contact.</i>
MSTS	Managing Director / General Manager to verify	High-risk and industrial training provider with scheduling, student and compliance admin potential. <i>Verify contact.</i>
AVELING	Managing Director / General Manager to verify	Established RTO with enrolment, LMS and contractor administration support potential. <i>Verify contact.</i>
Safety Direct Solutions Training	Training Manager / General Manager to verify	Safety and medical training provider with course coordination and compliance administration needs. <i>Verify contact.</i>
Civil Contractors Federation WA Training	Andy Graham, Chief Executive Officer	Civil construction training provider with administration and compliance evidence workflows.
Electrotechnology Training Institute	Chief Executive / General Manager to verify	Electrical training provider with HR, WHS and training administration support potential. <i>Verify contact.</i>
Auscare Training Organisation	Managing Director / RTO Manager to verify	Care-sector training provider with enrolment and student support workflows. <i>Verify contact.</i>
Leader Group Australasia	Managing Director / General Manager to verify	Private RTO with compliance, student and course administration support potential. <i>Verify contact.</i>
Perth Institute of Australia	Managing Director / College Manager to verify	Private training provider with international or domestic student administration workflows. <i>Verify contact.</i>

EXPAND THE LIST

Add **25–35 of your own researched accounts** that fit the profile — surfaced via Sales Navigator, job ads, industry directories and referrals. Aim for ~40–50 accounts for the month.

Buyers & qualification

Multi-thread each account — reach a senior decision maker for authority and an operational person for the felt pain.

PRIMARY DECISION MAKERS

- CEO · Owner · Managing Director
- General Manager
- RTO Manager

INFLUENCERS & SECONDARY BUYERS

- Student Services Manager
- Compliance Manager
- Operations / Admin Manager

Qualification questions

Use only what you need — the goal is a meeting, not a full diagnosis.

- Can I ask, does your local team spend much time processing enrolments or updating the LMS?
- Are student follow-ups, surveys or certificate preparation creating backlog?
- Do compliance evidence requests or document control tasks take time from senior staff?
- Do you currently use any offshore support?

Qualified appointment. Company fits the profile; contact is a decision maker or credible sponsor; at least one confirmed business driver; meeting accepted in the BDM's calendar with a clear handover note in HubSpot.

Objection handling — training & rtos

How to handle any objection. Acknowledge it sincerely, reframe to the business issue, then ask one question that keeps the conversation open. Never argue and never oversell — the goal is a short meeting for the BDM, not winning the point on the call.

Objection	Response angle
“Assessment can't be offshored.”	Correct — assessment and compliance decisions stay with your team. We support enrolment, LMS, evidence collation and student comms around them. Which is heaviest?
“ASQA compliance is strict.”	Which is why consistency helps — a trained resource who learns your process keeps evidence complete. You retain the compliance judgement.
“Student data privacy.”	A fair concern. Managed access, confidentiality and work inside your systems — happy to detail the controls with your team.
“We tried a VA before.”	Usually scoping and supervision. Our managed model trains and supervises the role and covers leave — not a marketplace.
“Intakes are seasonal.”	That's the strength — a dedicated resource absorbs intake peaks without hiring and shedding local staff.
“Just send info.”	Happy to — is it enrolment, LMS or compliance evidence that hurts most? I'll send the right example.

Know when to stop. A clear "no" frees time for better-fit accounts. Close the loop kindly, set a nurture date if there's a future trigger, and respect every opt-out immediately.

First-touch email

Sent from Brainbox / the BDM with the Industry Insight Article attached. The Associate follows up by phone within a few days.

SUBJECT · OFFSHORE STUDENT AND COMPLIANCE ADMINISTRATION SUPPORT FOR RTOS

Hi [First Name]

RTOs and private training providers carry heavy administrative demands across enrolment, student support, LMS administration, evidence collation, survey follow-up, certificate preparation and compliance documentation. Much of this work is repetitive, time-sensitive and important to the learner experience, but it can pull local staff away from higher-value compliance and training work.

Brainbox supports Australian businesses with dedicated offshore personnel from our delivery centre in the Philippines. For RTOs and training providers, the strongest use cases are administrative support roles that work inside existing systems and support local staff without replacing trainer judgement, assessor responsibility or compliance decision-making.

We have attached an Industry Insight Article that examines labour and administration pressure in the training sector. It explores where offshore support can assist with enrolment processing, student communication, LMS updates, compliance evidence management, survey administration and document preparation.

The opportunity for [Company] may sit in the workflows that slow down course delivery, student communication or compliance readiness.

Someone from Brainbox will be reaching out over the next few days to schedule a short meeting with our Business Development Manager. The meeting would focus on whether a dedicated offshore support role could improve administrative consistency and reduce pressure on your local education and compliance team.

Kind regards

[Sender Name] · Brainbox

Lead generation call script

A structured prompt to secure a 20-minute meeting for the BDM — not to sell the service on the call.

OPENING

Hi [First Name], this is [Caller Name] from Brainbox in Perth. We work with Australian businesses to place dedicated offshore staff through our delivery centre in the Philippines. I am calling because we sent through an Industry Insight Article on labour and administration pressure in RTOs and education services businesses. I wanted to see whether we could arrange a short discussion with our Business Development Manager.

INDUSTRY RELEVANCE

Training providers often carry significant administration around enrolments, student communication, LMS updates, document control, compliance evidence, survey follow-up and certificate preparation. The offshore opportunity is not training delivery or assessment judgement. It is support for the administrative workflows that sit around delivery, compliance and learner support.

QUALIFICATION

Can I ask, does your local team spend much time processing enrolments or updating the LMS? Are student follow-ups, surveys or certificate preparation creating backlog? Do compliance evidence requests or document control tasks take time from senior staff? Do you currently use any offshore support?

MEETING ASK

The most useful next step would be a 20-minute discussion with our Business Development Manager. The meeting would explore whether a dedicated offshore education administration role could support your local team. Would [day/time] or [day/time] suit?

LINKEDIN CONNECTION NOTE (OPTIONAL FIRST TOUCH)

Hi [First Name], I work with WA training & rtos businesses on offshore enrolment admin, student support, lms administration support. Noticed [Company]'s work — would be good to connect.

Follow-up sequence

First touch opens the door; the follow-ups win the meeting. Each adds a new angle — never resends the same message. Stop the sequence on any reply, opt-out or "do not contact".

Touch	Purpose
1 • Day 1	First-touch email + Industry Insight Article (previous page).
2 • Day 2–3	Phone call using the script; LinkedIn connection request if not already connected.
3 • Day 5	Value follow-up email — one specific angle from the proposition page.
4 • Day 9	Second call + short LinkedIn message with a relevant proof point.
5 • Day 14	Close-the-loop / breakup email — polite, no pressure, easy to reopen.
Day 45+	Move to nurture; revisit on a new trigger (hiring, growth, new work).

TOUCH 3 • VALUE FOLLOW-UP EMAIL

Hi [First Name], following my note on offshore support for training providers — the issue most WA RTOs raise first is trainers and student-services staff buried in enrolment, LMS and evidence admin. A dedicated administrator inside your systems eases the load while compliance judgement stays local. Worth 20 minutes with our BDM to see if it fits [Company]?

TOUCH 5 • CLOSE-THE-LOOP / BREAKUP EMAIL

Hi [First Name], I won't keep filling your inbox. If offshore education administration isn't a priority right now, that's fine — I'll close the loop. If it's timing, tell me when to circle back. The Industry Insight Article is yours to keep either way.

Multi-thread, don't spam. Space the sequence across the month and vary who you contact within an account — never several identical messages to one firm in a day.

The four-week plan

One month, carried by the Associate. Front-load research and first touches; protect the back half for conversion and booking.

Week 1
Verify the 15, research +25–35, map buyers & triggers, load HubSpot, send first email wave with the Insight Article.

Week 2
Call wave on emailed contacts, LinkedIn connects & engagement, follow-up wave 1, begin booking meetings.

Week 3
Second first-touch wave to remaining & researched accounts, multi-thread Tier 1, convert warm replies, referral asks.

Week 4
Conversion push, confirm & hand over booked meetings, reactivate non-responders, clean data, write month-end report.

Focus	What "good" looks like each week
Research	Every account verified, tiered and tagged Campaign 07; buyers mapped with a named trigger.
Outreach	Personalised first touches with the Insight Article attached; one strong reason per message.
Calls	Priority order: warm replies, accepted connections, openers, Tier 1 decision makers.
Booking	Two specific times offered; invite sent immediately; handover note in HubSpot for the BDM.

Cross-reference the core cadence. This campaign runs inside the weekly rhythm from the Lead Generation Playbook — campaign touches count toward the Associate's standard first-touch, follow-up, call and conversation targets, and campaign-sourced meetings count toward booked and held appointments.

BDM handover note

Complete this in HubSpot for **every** booked appointment. It is what turns a booking into a converted meeting — the BDM walks in already knowing the pain, the room and the angle.

Company & size	
Contact, role & who else is in the room	
Trigger (why now)	
Pain hypothesis	
Offshore-suitable roles identified	
Recommended angle / entry product	
Software & systems in use	
Objections raised & responses	
"Do not say" / sensitivities	
Meeting date, time & format	

DO INCLUDE

- The exact words the prospect used about their pain
- The specific trigger you found
- One clear recommended entry product

AVOID

- Over-promising scope or pricing
- Vague notes like "keen, wants to chat"
- Booking without confirming the decision maker attends

Monthly targets

The benchmark is appointments *held* with a good-fit training & rtos prospect, not activity alone.

40-50 Target accounts worked (15 supplied + research)	100-140 Contacts researched & enriched	40-50 First-touch emails with Insight Article	120-160 Follow-up actions across the month
80-120 Calls to priority & warm contacts	20-30 Live conversations / two-way exchanges	10-15 Warm opportunities created in HubSpot	6-10 Qualified appointments booked for the BDM

FINAL SUCCESS MEASURE

Appointments that convert into **sales opportunities** and ultimately a **commercial transaction**. Every metric above is a leading indicator of that single revenue outcome.

Training & RTOs — outcomes

Completed by the Associate and reviewed with the sales lead / Marketing Manager at month-end.

Associate		Month	
BDM covered		Reviewed with / date	

ACTIVITY & OUTCOMES VS TARGET

Measure	Target	Actual	Notes
Accounts worked	40-50		
First-touch emails sent	40-50		
Calls made	80-120		
Live conversations	20-30		
Warm opportunities created	10-15		
Qualified appointments booked	6-10
