

Transport, logistics & warehousing SMEs

A one-month campaign targeting WA transport, logistics and warehousing SMEs — operators carrying a heavy back-office load around dispatch, POD, compliance and customer updates.

CAMPAIGN OWNER

Associate: _____

DURATION

One calendar month

CORE TARGETS

15 priority + Associate research

ENTRY PRODUCT

Operations-support assistant (dispatch admin, POD processing, compliance, invoicing)

BRAINBOX

Campaign at a glance

The Associate carries this campaign for one month and reports achievements at month-end against the targets below. Work the 15 supplied contacts first, then add your own researched targets in the same profile.

15

Priority contacts supplied (verify before outreach)

25–35

Additional accounts the Associate researches & adds

6–10

Qualified appointments for the BDM this month

1

Industry Insight Article attached to every first touch

How the campaign runs. Work the 15 supplied contacts first, add your own researched targets to reach ~40–50 accounts, and run the four-week cadence in this pack. Every appointment is booked for the Brainbox **Business Development Manager (BDM)**, recorded in HubSpot, and tagged *Campaign 05 · Transport & Logistics*.

Why this industry

THE PRESSURE

Dispatch, proof of delivery, customer updates, invoicing, compliance records, fleet maintenance, driver documentation and after-hours communication all need to be handled quickly and accurately — but much of it does not need to be done by local operational staff.

THE OPPORTUNITY

Offshore support strengthens the back office around dispatch teams, fleet managers, compliance officers and accounts staff — POD processing, customer updates, compliance registers, invoice support, fleet maintenance admin, fatigue documentation and job data entry — so local staff stay focused on drivers, customers and vehicles.

MARKET SHAPE

Fragmented outside the major carriers. Target **regional freight, specialised logistics, courier networks, cold chain, machinery transport and mining-supply logistics** operators.

Offshore-suitable roles to lead with

- Dispatch admin
- Proof-of-delivery processing
- Customer updates
- Compliance registers
- Fatigue documentation support
- Invoicing
- Fleet maintenance admin
- Job data entry

Instant Expert

A five-minute brief so you can talk to a transport & logistics prospect like someone who understands their world — not a caller reading a script.

THE LABOUR MARKET THEY LIVE IN

Transport competes for drivers first, but the office is just as stretched — allocators, dispatch, compliance and accounts roles are hard to fill and easy to lose. WA's distances and 24/7 operating windows mean the admin never really stops, and after-hours coverage is a constant headache for lean teams.

WHY THE ADMIN LOAD HURTS

Every load generates dispatch instructions, proof-of-delivery capture, customer updates, compliance and fatigue records, invoicing and job data entry. When this backs up, invoices go out late, customers chase updates, compliance registers fall behind and operational staff are pulled off moving freight to fix paperwork.

THE PRESSURES SHAPING THEIR YEAR

Margins are thin and fuel, wages and compliance costs keep rising. Chain-of-responsibility and fatigue obligations are unforgiving, and late invoicing hurts cash flow. Customers expect real-time updates that a busy allocator can't always give — so service and cash both suffer.

WHERE OFFSHORE SUPPORT FITS

Drivers, vehicles and on-road decisions stay local. A dedicated offshore resource handles the structured back office — POD processing, customer updates, compliance and fatigue records, invoicing and data entry — often extending useful coverage outside standard Perth office hours.

TALK LIKE AN INSIDER

Know the language: allocation, PODs, consignment notes, chain of responsibility, NHVAS, fatigue management, mass/dimension, 3PL, cold chain, linehaul. Know the tools: MyTrucking, TransVirtual, CargoWise, M&L, telematics. Speak to responsiveness, compliance and cash flow.

Target profile & selection

Add researched accounts that meet **at least four** of these signals. Verify size and ownership before adding — the model fits owner-led SMEs.

- Regional freight, courier, 3PL, cold chain or machinery transport
- 10–100 staff, WA-based
- Owner or GM-led operator
- Recurring dispatch, POD, compliance & invoicing load
- Recently advertised for allocators, admin or accounts
- Uses transport software (MyTrucking, TransVirtual, CargoWise)
- Growth signals: new contracts, fleet expansion, new depots
- After-hours coverage or invoicing backlog pressure
- Visible operations & admin team on LinkedIn

PURSUE

- Regional & specialised freight / 3PL operators
- Owner / GM-led transport SMEs
- Recurring POD, compliance & invoicing load
- Operators needing after-hours coverage

EXCLUDE

- Major national carriers with shared services
- Operators too small to support a role
- Roles requiring on-site / on-road presence
- Entrenched offshore arrangements (unless reviewing)

The proposition & angles

Lead with a specific pressure point, not a generic offshore pitch. Match the angle to the person and the trigger.

Pressure point	Angle to lead with
POD backlog	POD processing and capture so invoicing isn't held up.
Customers chasing updates	A customer-update resource keeping clients informed in real time.
Compliance falling behind	Compliance and fatigue register maintenance to stay audit-ready.
Late invoicing	Invoice support and job data entry to tighten cash flow.
Fleet admin load	Fleet maintenance admin — services, registrations and records.
No after-hours cover	Extended-hours support so coverage isn't only 9–5 Perth time.

Keep it concrete. Prospects respond to one or two named workflows they recognise from their own week — a specific pressure point lands far better than "back-office support".

Priority prospect list – 15 supplied

First-pass, public-source targets. **Verify in HubSpot, Sales Navigator & Apollo before outreach** — confirm contact, size and fit. Names marked "verify" need a confirmed decision maker first.

Company	Best contact	Why approach
CTI Logistics	David Mellor and Bruce Saxild, Joint Managing Directors	WA logistics group with depot, freight, warehousing and administrative support workflows.
West Logistics	Peter Barbas, Owner and General Manager	3PL logistics business with warehouse, customer update and order administration support potential.
Jolly & Sons	Steele Jolly, Managing Director	Road freight business with fleet, dispatch and compliance administration support potential.
Centurion Transport	Chief Executive Officer / WA Operations Executive to verify	WA freight, heavy haulage and warehousing operator with operational support workflows. <i>Verify contact.</i>
LWP Logistics	Managing Director / General Manager to verify	WA freight and haulage provider with dispatch, customer update and invoicing support potential. <i>Verify contact.</i>
GO TLC	Managing Director / Operations Manager to verify	Freight forwarder with shipment, documentation and customer update support potential. <i>Verify contact.</i>
Northline WA	WA Depot / Branch Manager to verify	Freight operator with POD, dispatch and customer support workflows. <i>Verify contact.</i>
Capital Transport Group WA	WA Operations Manager to verify	Courier and transport operator with fleet, dispatch and driver administration support potential. <i>Verify contact.</i>
Freight Lines Group	Managing Director / General Manager to verify	Regional freight operator with dispatch, POD and compliance support potential. <i>Verify contact.</i>
Sadleirs Global Logistics	WA Operations Executive to verify	WA-linked logistics business with freight documentation and customer update support potential. <i>Verify contact.</i>
Aramex Perth	Branch Manager to verify	Depot-based courier and logistics operator with customer service and dispatch admin workflows. <i>Verify contact.</i>
Specialised Linen Services WA	Service Delivery Manager / General Manager to verify	High-volume linen logistics business with dispatch, fleet and customer service support potential. <i>Verify contact.</i>
Pioneer Water Tanks Logistics / Operations	General Manager to verify	Manufacturing and distribution business with logistics coordination and customer update support potential. <i>Verify contact.</i>
Coerco WA Distribution	Operations / Warehouse Manager to verify	Manufacturing and distribution business with warehouse and logistics administration potential. <i>Verify contact.</i>
Linen Services Australia WA	General Manager WA to verify	Large WA operations team with scheduling, dispatch and administration support potential. <i>Verify contact.</i>

EXPAND THE LIST

Add **25–35 of your own researched accounts** that fit the profile — surfaced via Sales Navigator, job ads, industry directories and referrals. Aim for ~40–50 accounts for the month.

Buyers & qualification

Multi-thread each account — reach a senior decision maker for authority and an operational person for the felt pain.

PRIMARY DECISION MAKERS

- Owner · Managing Director
- CEO · General Manager
- Operations Director

INFLUENCERS & SECONDARY BUYERS

- Operations / Depot Manager
- Compliance / Fleet Manager
- Finance / Accounts Manager

Qualification questions

Use only what you need — the goal is a meeting, not a full diagnosis.

- Can I ask, does your team spend much time processing PODs or chasing delivery information?
- Are customer updates, compliance records or invoicing creating backlog?
- Do fleet maintenance records or driver documents take up local coordinator time?
- Do you need support outside ordinary Perth office hours?

Qualified appointment. Company fits the profile; contact is a decision maker or credible sponsor; at least one confirmed business driver; meeting accepted in the BDM's calendar with a clear handover note in HubSpot.

Objection handling — transport & logistics

How to handle any objection. Acknowledge it sincerely, reframe to the business issue, then ask one question that keeps the conversation open. Never argue and never oversell — the goal is a short meeting for the BDM, not winning the point on the call.

Objection	Response angle
“It all has to happen here.”	The on-road work does — but POD processing, customer updates, compliance records and invoicing don't. Which of those backs up most in your week?
“Compliance is too critical.”	Exactly why consistency helps. A trained resource keeps your fatigue and CoR registers current — you keep ownership of the obligations.
“We run 24/7.”	That's a strength here — offshore hours can extend your useful coverage beyond a local 9–5 without paying penalty rates.
“Tried outsourcing, didn't work.”	Usually scoping and supervision. Our managed model trains the person in your systems and covers leave — not a gig marketplace.
“Margins are tight.”	Which is the reason to look — faster invoicing and less overtime admin at a fraction of a local hire directly helps cash flow.
“Just send info.”	Happy to — is it POD, customer updates or invoicing that hurts most? I'll send the right example.

Know when to stop. A clear "no" frees time for better-fit accounts. Close the loop kindly, set a nurture date if there's a future trigger, and respect every opt-out immediately.

First-touch email

Sent from Brainbox / the BDM with the Industry Insight Article attached. The Associate follows up by phone within a few days.

SUBJECT · OFFSHORE OPERATIONS SUPPORT FOR WA TRANSPORT AND LOGISTICS BUSINESSES

Hi [First Name]

Transport, logistics and warehousing businesses carry a heavy administrative load around dispatch, proof of delivery, customer updates, invoicing, compliance records, fleet maintenance, driver documentation and after-hours communication. Much of this work is essential, but it does not always need to be performed by local operational staff.

Brainbox supports Australian businesses by placing dedicated offshore personnel through our delivery centre in the Philippines. For transport and logistics operators, offshore support can strengthen the back office around dispatch teams, fleet managers, compliance officers and accounts staff.

We have attached an Industry Insight Article that looks at labour and administration pressure in the transport and logistics sector. It explores the practical use of offshore roles for POD processing, customer updates, compliance registers, invoice support, fleet maintenance administration, fatigue documentation support and job data entry.

The opportunity for [Company] may be to remove low-value administrative work from people who need to stay focused on drivers, customers, vehicles and service delivery.

Someone from Brainbox will be reaching out over the next few days to schedule a short meeting with our Business Development Manager. The meeting would focus on where offshore support could improve response times, reduce admin backlog and support more consistent operational control.

Kind regards

[Sender Name] · Brainbox

Lead generation call script

A structured prompt to secure a 20-minute meeting for the BDM — not to sell the service on the call.

OPENING

Hi [First Name], this is [Caller Name] from Brainbox in Perth. We work with Australian businesses to place dedicated offshore support personnel through our delivery centre in the Philippines. I am calling because we sent through an Industry Insight Article on labour and administration pressure in transport, logistics and warehousing businesses. I wanted to see whether we could arrange a short meeting with our Business Development Manager.

INDUSTRY RELEVANCE

Transport businesses often have pressure in the office as much as on the road. Dispatch support, proof-of-delivery processing, customer updates, compliance registers, invoicing, maintenance records and driver documentation all need to be handled quickly and accurately. The offshore opportunity is to support the local operations team so they can stay focused on drivers, customers, vehicles and service delivery.

QUALIFICATION

Can I ask, does your team spend much time processing PODs or chasing delivery information? Are customer updates, compliance records or invoicing creating backlog? Do fleet maintenance records or driver documents take up local coordinator time? Do you need support outside ordinary Perth office hours?

MEETING ASK

The useful next step would be a 20-minute discussion with our Business Development Manager. The conversation would focus on where a dedicated offshore support role could improve response times and reduce administrative pressure. Would [day/time] or [day/time] suit?

LINKEDIN CONNECTION NOTE (OPTIONAL FIRST TOUCH)

Hi [First Name], I work with WA transport & logistics businesses on offshore dispatch admin, proof-of-delivery processing, customer updates support. Noticed [Company]'s work — would be good to connect.

Follow-up sequence

First touch opens the door; the follow-ups win the meeting. Each adds a new angle — never resends the same message. Stop the sequence on any reply, opt-out or "do not contact".

Touch	Purpose
1 • Day 1	First-touch email + Industry Insight Article (previous page).
2 • Day 2–3	Phone call using the script; LinkedIn connection request if not already connected.
3 • Day 5	Value follow-up email — one specific angle from the proposition page.
4 • Day 9	Second call + short LinkedIn message with a relevant proof point.
5 • Day 14	Close-the-loop / breakup email — polite, no pressure, easy to reopen.
Day 45+	Move to nurture; revisit on a new trigger (hiring, growth, new work).

TOUCH 3 • VALUE FOLLOW-UP EMAIL

Hi [First Name], following my note on offshore support for transport operators — the issue most WA businesses raise first is POD processing and customer updates holding up invoicing and service. A dedicated back-office resource, potentially outside standard hours, keeps freight moving and cash flowing. Worth 20 minutes with our BDM to see if it fits [Company]?

TOUCH 5 • CLOSE-THE-LOOP / BREAKUP EMAIL

Hi [First Name], I won't keep landing in your inbox. If offshore operations support isn't a priority right now, no problem — I'll close the loop. If it's timing, tell me when to circle back. The Industry Insight Article is yours to keep.

Multi-thread, don't spam. Space the sequence across the month and vary who you contact within an account — never several identical messages to one firm in a day.

The four-week plan

One month, carried by the Associate. Front-load research and first touches; protect the back half for conversion and booking.

Week 1
Verify the 15, research +25–35, map buyers & triggers, load HubSpot, send first email wave with the Insight Article.

Week 2
Call wave on emailed contacts, LinkedIn connects & engagement, follow-up wave 1, begin booking meetings.

Week 3
Second first-touch wave to remaining & researched accounts, multi-thread Tier 1, convert warm replies, referral asks.

Week 4
Conversion push, confirm & hand over booked meetings, reactivate non-responders, clean data, write month-end report.

Focus	What "good" looks like each week
Research	Every account verified, tiered and tagged Campaign 05; buyers mapped with a named trigger.
Outreach	Personalised first touches with the Insight Article attached; one strong reason per message.
Calls	Priority order: warm replies, accepted connections, openers, Tier 1 decision makers.
Booking	Two specific times offered; invite sent immediately; handover note in HubSpot for the BDM.

Cross-reference the core cadence. This campaign runs inside the weekly rhythm from the Lead Generation Playbook — campaign touches count toward the Associate's standard first-touch, follow-up, call and conversation targets, and campaign-sourced meetings count toward booked and held appointments.

BDM handover note

Complete this in HubSpot for **every** booked appointment. It is what turns a booking into a converted meeting — the BDM walks in already knowing the pain, the room and the angle.

Company & size	
Contact, role & who else is in the room	
Trigger (why now)	
Pain hypothesis	
Offshore-suitable roles identified	
Recommended angle / entry product	
Software & systems in use	
Objections raised & responses	
"Do not say" / sensitivities	
Meeting date, time & format	

DO INCLUDE

- The exact words the prospect used about their pain
- The specific trigger you found
- One clear recommended entry product

AVOID

- Over-promising scope or pricing
- Vague notes like "keen, wants to chat"
- Booking without confirming the decision maker attends

Monthly targets

The benchmark is appointments *held* with a good-fit transport & logistics prospect, not activity alone.

40-50 Target accounts worked (15 supplied + research)	100-140 Contacts researched & enriched	40-50 First-touch emails with Insight Article	120-160 Follow-up actions across the month
80-120 Calls to priority & warm contacts	20-30 Live conversations / two-way exchanges	10-15 Warm opportunities created in HubSpot	6-10 Qualified appointments booked for the BDM

FINAL SUCCESS MEASURE

Appointments that convert into **sales opportunities** and ultimately a **commercial transaction**. Every metric above is a leading indicator of that single revenue outcome.

Transport & Logistics — outcomes

Completed by the Associate and reviewed with the sales lead / Marketing Manager at month-end.

Associate		Month	
BDM covered		Reviewed with / date	

ACTIVITY & OUTCOMES VS TARGET

Measure	Target	Actual	Notes
Accounts worked	40–50		
First-touch emails sent	40–50		
Calls made	80–120		
Live conversations	20–30		
Warm opportunities created	10–15		
Qualified appointments booked	6–10
